Contractors,

Please see attached quote for the striping work on the Caltrans project listed above. Please note that we are a certified DVBE / SB, and look forward to helping you meet your DVBE / SB goals for this project.

When you turn in your DVBE submittal to the State, please do not attach our actual quote. I've attached a copy of our DGS profile for your use.

Just a couple of notes to help you compare 'apples to apples' with other striping quotes:

1. Traffic Control -
 - *We include our own traffic control, because a moving lane closure is more costly (and dangerous) than a stationary closure, and most traffic control companies (KRC, Statewide, etc) will not perform them. Striping and pavement markers are both installed with moving lane closures.*
2. Tab (Floppy) Removal -
 - *We include tab removal in our quotes, as we believe this is the best way to efficiently and safely get the work done. Otherwise, we would have to require a laborer from the Contractor on-site the entire time we are performing our striping operation.*
3. Surface Prep -
 - *Our price includes any cure removal and/or primer that may be required for proper material bond. We do require the Contractor to provide a clean, dry pavement.*

Thank you and good luck!

James Malloy
Operations Manager
